

MAY 2 AND 3, 2005
VIENNA, AUSTRIA

3rd Vienna Arthroscopic Temporomandibular Joint Surgery Workshop

Hospital of Cranio-Maxillofacial
and Oral Surgery
University of Vienna, Austria

Head: Univ. Prof. Dr. Dr. Rolf Ewers

Rolf Ewers

Dear colleagues,

It gives us great pleasure to invite you to this workshop on diagnostic and operative temporomandibular joint arthroscopic surgery in Vienna in 2005.

Arthroscopic application of lasers, arthroscopic repositioning techniques for disc displacement, or the intraarticular use of shavers - techniques such as these have expanded the indications for minimally invasive temporomandibular joint surgery step by step within the last decade.

The goals of this course are to provide basic knowledge and to give an overview over the full spectrum of state-of-the-art techniques as well. We offer interactive lectures, video demonstrations of surgical procedures and a hands-on workshop, teaching basic and advanced arthroscopic surgical techniques on fresh cadaveric specimens.

We are looking forward to welcoming you to Vienna in May 2005!

Univ.Prof. Dr. Dr. Rolf Ewers

Professor and Chair, Hospital of
Cranio-Maxillofacial and Oral Surgery,
University of Vienna

Univ.Prof. Dr. Dr. Gerhard Undt

Associate Professor and
Workshop Director

Lectures

**Confraternitaet
Privatklinik Josefstadt
Skodagasse 32
A-1090 Vienna, Austria**

08:00 – 09:00 Registration

09:00 – 12:00 Interactive lectures

12:00 – 13:00 Lunch

13:00 – 14:00 Interactive lectures

14:00 – 16:00 Video presentations

Topics:

- Applied functional anatomy and arthroscopic anatomy of the TMJ
- Portals of entry
- Intraarticular pathology
- Arthroscopic lysis and lavage
- Triangulation techniques
- Hand and motorized instrumentation
- Intraarticular use of the Holmium:YAG-laser
- Arthroscopic disc repositioning procedures
- Arthroscopic modelling of joint surfaces
- Arthroscopic management of recurrent mandibular dislocation
- Intraarticular navigation
- Patient selection and management

Tuesday, May 3, 2005

Hands-on Workshop

**Institute of Anatomy
Medical University of Vienna
Waehringer Strasse 13
A-1090 Vienna**

Live demonstrations and practical training in basic and advanced arthroscopic surgical techniques on fresh cadaveric specimens

09:00 – 12:00 Group A – advanced

Learning objectives:

- Triangulation
- Electrosurgery
- Use of shavers
- Use of the Holmium:YAG-laser
- Foreign body retrieval

12:00 – 13:00 Lunch for groups A and B

16:00 – 17:00 Coffe and snacks for groups B and C

13:00 – 16:00 Group B – basic

17:00 – 20:00 Group C – basic

Learning objectives:

- Basic knowledge of instruments and video equipment
- Single and double puncture techniques
- Intraarticular anatomy and pathology
- Triangulation
- Arthroscopic lysis of adhesions

General Information

Who should attend

This course is designed for those surgical specialists beginning their careers in temporomandibular joint arthroscopy, as well as those experienced in arthroscopic surgical techniques who wish to continue to refine their diagnostic and surgical abilities. Please indicate, if you want to participate in the “basic” or in the “advanced” hands-on-workshop. You may choose only one of the workshops!

Official language

English will be the official language of the meeting. No simultaneous translation will be provided.

Limited attendance

The fees are based on two attendees per specimen (one joint for each participant).

As the number of fresh cadaveric specimens is limited, attendees will be selected on a first registered, first accepted basis.

Registration fee

Including all lectures and video presentations on May 2, 2005 and either the “basic” or the “advanced” hands-on-workshop on May 3, 2005.

Euro 750,-

Payment:

Bank transfer to the following account

Erste Bank

Account number: 40410070700

Account holder: Vienna Medical University

Bank code: 20111
