

1ST VIENNA INTERNATIONAL COURSE ON DIAGNOSTIC AND INTERVENTIONAL SIALENDOSCOPY

NOVEMBER 26 AND 27, 2004
VIENNA, AUSTRIA

HEAD: UNIV.-PROF. DR. DR. ROLF EWERS

HOSPITAL OF CRANIO-MAXILLOFACIAL AND ORAL SURGERY
MEDICAL UNIVERSITY OF VIENNA, AUSTRIA

Dear Colleagues,

It gives us great pleasure to invite you to this first international course on diagnostic and interventional sialendoscopy in Vienna.

This minimally invasive technique allows for accurate diagnosis of pathologies of the salivary ducts, the treatment of stenosis and the endoscopically controlled removal of salivary stones. International experts in the field will make you familiar with salivary gland pathology, new radiologic techniques for the visualisation of salivary gland disorders and the indications for sialendoscopy.

The hands-on Workshop, directed by Oded Nahlieli, a worldwide renowned pioneer and specialist in the field, offers you the possibility to practise sialendoscopic techniques on fresh pig heads as well as on fresh cadaveric human specimens.

We are looking forward to welcoming you to Vienna in November 2004!
